

Enterprise Systems Integration with SAP Certification PgCert/PgDip/MSc

COURSE FACTS

School	Engineering, Design and Manufacturing Systems
Application	For details on how to make an application visit www.bcu.ac.uk/student-info/how-to-apply
Location	City Centre Campus, Millennium Point
Duration	Full-time: 13 months, part-time 30 months

KEY FACTS

- Gain an industry recognised SAP certification on SAP HANA, SAP Mobility and SAP ABAP.
- This course will enable you to gain knowledge and expertise on systems design, development, architecture and systems integration.
- The program integrates the use of major commercial and industry recognised systems, frameworks and architectures such as SAP, Apple and TOGAF.
- The course will also offer knowledge on people and organisation behaviour within the market place and alignment of business strategy with enterprise systems for effective systems engineering.

WHY CHOOSE US?

- The Centre for Enterprise Systems is leading SAP Centre in education, research and industry engagement.
- As part of this course you will receive a complimentary membership of SAP UK & Ireland User Group, which provides access to SAP industry led events, forum and conferences in UK & Ireland.
- The course will offer a unique industry experience and opportunity towards becoming SAP Technical consultant in areas such as SAP HANA, Mobile and ABAP.

COURSE OVERVIEW

The course aims to provide you with the fundamental knowledge and principles of enterprise systems integration, enabling you to gain practical and hands on experience in systems engineering, systems design, systems development and architecture.

In addition this course will enable you to gain SAP training and expertise on SAP HANA, SAP Mobile and SAP ABAP, to start your career as an SAP HANA or Mobile consultant.

COURSE STRUCTURE

This course is part of the Centre for Enterprise Systems, and offers access to unique SAP facilities, SAP industrial partners, SAP software and equipment and is delivered by a team of experience academics, researchers and industrial experts.

SEMESTER 1			
Postgraduate Certificate - 60 Credits			
Business Information Strategy	Systems Development	Advanced Software Engineering	Security and Governance

SEMESTER 2			
Postgraduate Diploma - 120 Credits			
Enterprise Systems Integration	Business Intelligence and Analytics	Developing Human Capabilities	Mobile Software Development

SEMESTER 3			
MSc Award - 180 Credits			
Master's Project			

ASSESSMENT

A range of assessment methods are employed, assessment criteria being published in each assignment brief. Knowledge and skills are assessed, formatively and summatively, by a number of methods, coursework, examinations (seen and unseen, open and closed-book), presentations, practical assignments, vivas, online forums, podcasts, and project work.

ENTRY REQUIREMENTS

We would normally expect you to hold at least a Second Class Honours degree or equivalent in an appropriate discipline. However, we can also consider your application without standard entry qualifications if you can provide evidence of the necessary knowledge and skills to successfully complete the course.

EMPLOYABILITY

The students graduate from this course will have a carrier opportunity to work in the industry as an SAP HANA, SAP Mobile or and SAP ABAP Consultant. In addition they may pursue careers as enterprise systems architecture and integration consultant in all disciplines.

Birmingham City University,
Faculty of Computing Engineering and
