6	<b>Course Description</b>
	<p>Looking for a foundation course in psychology in Birmingham? Our BSc (Hons) Psychology with a Foundation Year degree has lower entry requirements and can lead to a full undergraduate qualification.</p> <p>This course has been specifically designed to allow home and EU students, who do not initially meet the Birmingham City University entry requirements for our standard Psychology degree, to undertake additional level 3 study designed to ensure they are successful on their chosen degree course.</p> <p><b>Why study a degree with a foundation year</b></p> <ul style="list-style-type: none"> <li>• If you want the flexibility of a year's study on a more general course to find out the best degree choice for you.</li> <li>• If you have changed your mind about your career since you chose your A-levels or BTECs and need to improve your skills in a different subject area.</li> <li>• If you would like extra time and support to help you build your knowledge, skills and confidence before starting a full degree.</li> <li>• If you don't quite meet our entry requirements but know you have the potential to succeed at university.</li> </ul> <p><b>What's covered in the course?</b></p> <p>The foundation year itself will equip you with the required knowledge and skills to proceed on to any of our undergraduate Psychology degree courses offered within the School of Social Sciences.</p> <p>You will gain a deep understanding of how the core and specialised areas in psychology contribute to our understanding of contemporary issues, as well as looking at the role of brain function across multiple psychological perspectives. You'll apply scientific reasoning and evaluate patterns of behaviour, gaining key transferable skills in communication, teamwork and problem-solving. You'll also adopt a variety of perspectives ensuring you get the big picture.</p> <p>You will explore scientific approaches to understanding the mind, brain and behaviour. Our Psychology department works in partnership with the nationally recognised Higher Education Academy (HEA) to continually develop the quality of both our staff and the course, focusing on</p>

	<p>self-development, contemporary learning practices and integrating practice within the community.</p> <p>Instead of only engaging with other academics and psychologists, we focus on connecting with, and making an impact on, the local community through links with businesses, NHS and the surrounding prison services.</p>

### 13 Overall Student Workload and Balance of Assessment

Overall student *workload* consists of class contact hours, independent learning and assessment activity, with each credit taken equating to a total study time of around 10 hours. While actual contact hours may depend on the optional modules selected, the following information gives an indication of how much time students will need to allocate to different activities at each level of the course.

- *Scheduled Learning* includes lectures, practical classes and workshops, contact time specified in timetable
- *Directed Learning* includes placements, work-based learning, external visits, on-line activity, Graduate+, peer learning
- *Private Study* includes preparation for exams

The *balance of assessment* by mode of assessment (e.g. coursework, exam and in-person) depends to some extent on the optional modules chosen by students. The approximate percentage of the course assessed by coursework, exam and in-person is shown below.

#### Level 3

##### Workload
