➤ Passpack – Password Manager

Passpack – Password Manager

The screenshot displays the Passpack Password Manager interface. At the top, the Passpack logo is visible. Below it, a navigation bar includes tabs for Summary, Passwords (selected), People, and Messages. On the right of this bar are links for Auto-login, Settings, Tools, Account, and Help. A sub-header for Passwords says "Bulk edit your entries".

The main content area shows "65 entries unpacked" with buttons for "Undo All" and "Add New". A search bar is present. On the left, "Quick Filters" include "All unpacked entries (65)", "Favorites (2)", "Unshared (65)", and "Security level".

The central table lists password entries:

Go	Name	(click to copy content)
	VISA	
	Water	
	Waterstones	
	Western Union	
	Zoopla	

At the bottom of the table are pagination links: "< previous page", "ado", "eba", "lon", "ode", "swi", "vis", and "next page >".

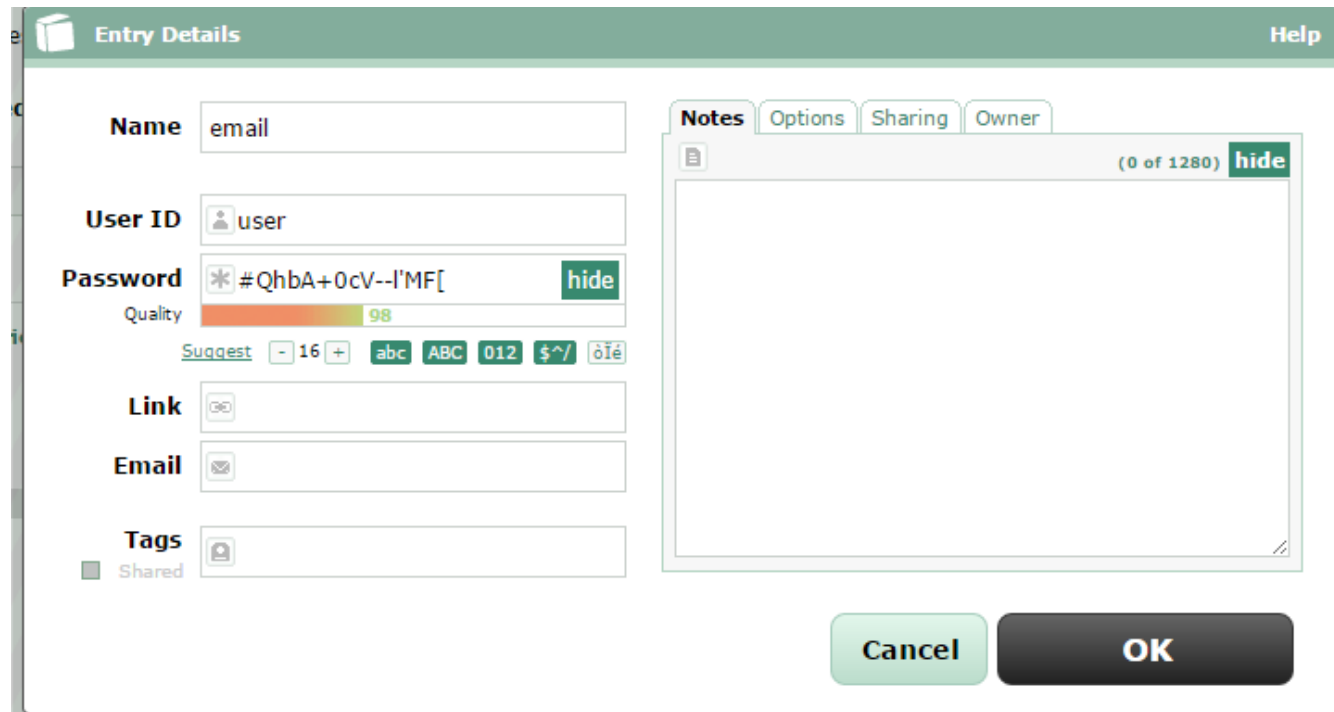

The footer contains five columns of links:

- WHO'S IT FOR?**
 - Everyday Folks
 - Head of Household
 - Web Workers

➤ Passpack – Password Manager

Add new password

Give it a name, e.g. email. User ID. Type in a password or let Passpack suggest one for you. Increase number of characters, choose lower and upper case letters, numbers, special and/or foreign characters.

The image shows the 'Entry Details' window in the Passpack password manager. The window has a green header bar with a folder icon, the title 'Entry Details', and a 'Help' link. The main area contains several input fields: 'Name' with the value 'email', 'User ID' with the value 'user', 'Password' with a generated password '#QhbA+0cV--l'MF[' and a 'hide' button, 'Link' with a URL icon, 'Email' with an email icon, and 'Tags' with a tag icon. Below the 'Password' field is a 'Quality' bar showing '98' and a 'Suggest' button with a character count of '16'. To the right of the 'Password' field are buttons for 'abc', 'ABC', '012', '\$^/', and 'ôïé'. On the right side of the window, there are tabs for 'Notes', 'Options', 'Sharing', and 'Owner'. The 'Notes' tab is active, showing a text area with '(0 of 1280)' and a 'hide' button. At the bottom right, there are 'Cancel' and 'OK' buttons.

➤ Rohos Pen Drive Encryption

<http://www.rohos.com/products/rohos-mini-drive/downloads/>

256 bit encryption key length

The screenshot shows the Rohos website's 'Rohos Mini Drive - Download' page. The page features a navigation bar with links: Home, Products, Download, Order, Support, Company, and Blog. A search bar and a language selector (Portuguese) are also present. The main content area includes a 'Download Now' button, the file size '2.2 Mb', and compatibility information for 'Windows 2000/XP/2003/Vista/Seven'. It also lists supported languages: English, German, Spanish, Italian, French, Russian, Dutch and more. A 'Create new Rohos disk' dialog box is overlaid on the page. This dialog box contains the following information: 'Create additional encrypted partition on the USB flash drive. This disk will be accessed by password.', 'USB flash drive K:\ has been found. [Change...]', 'Encrypted partition properties will be: Disk size: 297 Megabytes, Disk letter: L:, Partition file-image: K:_rohos\rdisk0.rdi. [Change...]', password input fields for 'Specify password to access disk:' and 'Confirm password:', a checked checkbox for 'Create disk shortcut on the desktop', and buttons for 'Learn more...', 'Create disk', and 'Cancel'.

Rohos Mini Drive - Download

Create new Rohos disk

Create additional encrypted partition on the USB flash drive. This disk will be accessed by password.

USB flash drive K:\ has been found. [Change...]

Encrypted partition properties will be:

- Disk size: 297 Megabytes
- Disk letter: L:
- Partition file-image: K:_rohos\rdisk0.rdi. [Change...]

Specify password to access disk:
.....

Confirm password:
.....

☒ Create disk shortcut on the desktop

[Learn more...](#) Create disk Cancel

Rohos Mini Drive creates hidden and encrypted partition on a USB flash drive memory. You work with the files on the hidden partition without opening a special program. Those who have megabytes of sensitive files on the USB drive and seriously concerned with a data security, cannot imagine their USB stick without the hidden volume that is created using this tool.

Rent-A-Hacker

experienced hacker offering his services!
(illegal) Hacking and social engineering is my bussiness since i was 16 years old, never had a real job so i had the time to get really good at hacking and i made a good amount of money last +-20 years.
i have worked for other people before, now im also offering my services for everyone with enough cash here.

prices:
im not doing this to make a few bucks here and there, im not from some crappy eastern europe country and happy to scam people for 50 euro.
im a professional computer expert who could earn 50-100 euro an hour with a legal job.
so stop reading if you dont have a serious problem worth spending some cash at.
prices depend alot on the problem you want me to solve, but minimum amount for smaller jobs is 200 euro.
you can pay me anonymously using Bitcoin.

technical skills:
Web (HTML, PHP, SQL, APACHE)
C/C++, Assembler, Delphi
0day Exploits, Highly personalized trojans, Bots, DDOS
Spear Phishing Attacks to get accounts from selected targets
Basically anything a hacker needs to be successfull, if i dont know it, ill learn it very fast
Anonymity: noone will ever find out who i am.

social Engineering skills:

What is the Tor Browser?

DOWNLOAD
Tor Browser

Installation Instructions
[Windows](#) • [Mac OS X](#) • [Linux](#)

The **Tor** software protects you by bouncing your communications around a distributed network of relays run by volunteers all around the world: it prevents somebody watching your Internet connection from learning what sites you visit, it prevents the sites you visit from learning your physical location, and it lets you access sites which are blocked.

The **Tor Browser** lets you use Tor on Windows, Mac OS X, or Linux without needing to install any software. It can run off a USB flash drive, comes with a pre-configured web browser to protect your anonymity, and is self-contained (portable).
