6	Course Description
	<p>Royal Birmingham Conservatoire is a multidisciplinary arts education institution that provides exceptional training for the musicians, actors, stage managers and performers of the future. As part of Birmingham City University, the Conservatoire is able to offer a stimulating creative environment with limitless opportunities for collaboration and depth of experience. We pride ourselves on maintaining an impressive international reputation that celebrates diversity and excellence. The Music Division of Royal Birmingham Conservatoire offers vocational musical training in performance, composition, music technology and jazz at undergraduate and postgraduate levels. We are dedicated to ensuring that each student reaches their full potential and leaves us prepared for a successful career in the challenging arts industry.</p> <p>The BMus (Hons) degree course is the largest undergraduate course at Royal Birmingham Conservatoire and its main aim is to prepare students for a career in the music profession, whether that is in performance, composition or music technology.</p> <p>At the heart of our programme's philosophy is the ideal of the informed musician, someone who is able to combine both advanced skills and musical knowledge in the advancement of their musical career. The BMus (Hons) programme therefore aims to develop the specialist skills, the theoretical, historical and practice-based knowledge and to encourage the individual creativity required for you to become an independent learner, a critical interpreter and a reflective practitioner.</p> <p>An emphasis is placed on versatility, an essential ingredient of most careers in music. Whilst first study work (solo performance, composition and music technology) remains at the centre of the programme, you will also have opportunities to develop skills in other areas according to your specific needs, interests and career aspirations. The programme provides a secure foundation for postgraduate study and entry into the music profession.</p>

13 Overall Student Workload and Balance of Assessment

Overall student *workload* consists of class contact hours, independent learning and assessment activity, with each credit taken equating to a total study time of around 10 hours. While actual contact hours may depend on the optional modules selected, the following information gives an indication of how much time students will need to allocate to different activities at each level of the course.

- *Scheduled Learning* includes lectures, practical classes and workshops, contact time specified in timetable
- *Directed Learning* includes placements, work-based learning, external visits, on-line activity, Graduate+, peer learning
- *Private Study* includes preparation for exams

The *balance of assessment* by mode of assessment (e.g. coursework, exam and in-person) depends to some extent on the optional modules chosen by students. The approximate percentage of the course assessed by coursework, exam and in-person is shown below.

Level 4

Workload

35% time spent in timetabled teaching and learning activity
