

APPLICANT TASTER DAY SCHEDULE

WEDNESDAY VISIT DAY

1.00pm

Arrival

Arrive between 1.00pm and 1:30pm on the ground floor of our Millennium Point building, at the city centre campus.

1.30pm

Welcome Talk – Start your journey to becoming a Built Environment professional

Your student experience starts here. You'll take part in a fun, practical design and build project. You'll then start thinking about how you can look at your project as a real Built Environment professional - identifying and exploring its strengths, as well as potential issues that may occur. This is a great way to start adopting a practical mind-set and you'll discover how interactive your course will be.

1.50pm

What's it like to study Civil Engineering?

Want to start thinking like a real engineer? Challenge and apply your skills in this interactive activity with the help of staff and students from the course. You'll get a taste of fundamental Civil Engineering concepts that you'll explore in more depth during your studies with us. You'll also get to check out our state-of-the-art lab facilities and preview work being done by current Civil Engineering students!

3.30pm

Take a walking tour of your living lab: Birmingham

Birmingham is your playground. The city's landscape is in a state of flux and bursting with opportunities for you to explore. Walk with our students to see first-hand some of the city's construction and regeneration projects that you could be involved with during your studies.

4.30pm

It's all about you, so get your questions ready!

Once you've taken your tour, we'll summarise the day with some final bits of information that we think you'll find useful. We'll also be happy to answer any questions you may have before you go, so make sure you prepare some for us!

4.45pm

Want to take the accommodation tour?

A quick student accommodation tour is available to those who wish to get a feel for what living away from home is like and would like to check out our halls.
