- Accommodation Offer
- Licence Agreement

### **Accommodation fees**

You are required to pay the Residence Fee for the full contract regardless of whether you leave the University or no longer want to live in University accommodation. Please see the table at 5.6 in the Licence Agreement which clarifies your liability for future payments.

You will need to pay £150 to accept your offer of accommodation. This payment is not a deposit but will be deducted from the first instalment of the residence fee. The Finance Information document contains important guidance about the dates for payment and the ways to pay.

### **Non payment**

If you do not pay your accommodation fees when they are due then the University may terminate the Contract and thereafter, if necessary, take legal action against you and/or pass the debt to a recovery agent, which could affect your credit reference and cost you more money.
