6 Course Description

"Be the change you want to see in the world" – Nelson Mandela. If you want to play a role in the changing world, then this is the course where you can find out what you can be.

The Business Management course will offer you a practical based degree applicable to a wide range of sectors. You will be able to contribute to critical debates on industry related contemporary issues and understand the dynamic needs of business managers in the 21st century to reflect current knowledge and best practices.

You will gain specialist knowledge on a number of core functions of management, building your self-confidence to prepare you for a progressive and successful career in management. Exciting opportunities including integrated work projects and business placements in the UK or abroad are all featured in your course, therefore your career can start whilst achieving your qualification. You will have the benefit of renowned industry speakers and live projects to inspire and help you to develop.

The international focus of the course is derived through a variety of means including the student body, the teaching team and the use of international teaching materials. Moreover, you can choose to spend a year or a full semester studying your modules overseas at a partner institution. Similarly, the Business Management course embeds the UN Sustainable Development Goals as an integral part of the course.

Tailor your Business Management Degree

We offer three routes (pathways) to achieve your degree. These are:

- Business Management
- Business Management with Supply Chain Management,
- Business Management with Enterprise

You even have the opportunity to change your degree pathway after completing your first year.

What's covered in the course?

The development and operation of contemporary and international business markets will be embraced in your learning. This will also include the management of key resources including human capital, financial management, strategic management and cultural awareness. You'll gain an important insight into digital business exploring how technology remodels the business world and consider the accompanying issues around social responsibility and ethical behaviour.

This course is accredited by the Chartered Management Institute (CMI). This ensures you'll be provided with the latest information and knowledge, as well as providing key industry links and insight. Success on the programme will additionally award you with a CMI professional certificate.
