6	Course Description
	<p>The BA (Hons) Business Management with Foundation year course at Birmingham City Business School provides a valuable introduction to the management of key resources including human capital, financial management, strategic management and cultural awareness. We create graduates who possess a global outlook, with the conceptual and applied knowledge in the field of business management that will enable them to make a positive impact on society.</p> <p>The foundation year is designed to give you the opportunity to develop your academic and interpersonal skills whilst developing your business skills further to support you to success on your academic path.</p> <p>What's covered in the course?</p> <p>The development and operation of contemporary and international business markets will be embraced in your learning. This will also include the management of key resources including human capital, financial management, strategic management and cultural awareness. You'll gain an important insight into digital business exploring how technology remodels the business world and consider the accompanying issues around social responsibility and ethical behaviour.</p> <p>This course is accredited by the Chartered Management Institute (CMI). This ensures you'll be provided with the latest information and knowledge, as well as providing key industry links and insight. Success on the course will additionally award you with a CMI professional certificate. You will gain specialist knowledge on a number of core functions of management, building your self-confidence to prepare you for a progressive and successful career in management. Exciting opportunities including integrated work projects and business placements in the UK or abroad are all featured in your course, therefore your career can start whilst achieving your qualification. You will have the benefit of renowned industry speakers and live projects to inspire and help you to develop.</p> <p>With our practice-based approach to teaching, you will learn from professionally qualified academics with a wealth of industry experience, and research active academics whose research underpins and informs our approach to teaching</p>

	The international focus of the course is derived through a variety of means including the student body, the teaching team and the use of international teaching materials. Where appropriate to the individual topics covered during the course, implications for sustainability will be identified that relate to the UN Sustainable Development Goals. Moreover, you can choose to spend a year or a full semester studying your modules overseas at a partner institution.

13 Overall Student Workload and Balance of Assessment

Overall student *workload* consists of class contact hours, independent learning and assessment activity, with each credit taken equating to a total study time of around 10 hours. While actual contact hours may depend on the optional modules selected, the following information gives an indication of how much time students will need to allocate to different activities at each level of the course.

- *Scheduled Learning* includes lectures, practical classes and workshops, contact time specified in timetable
- *Directed Learning* includes placements, work-based learning, external visits, on-line activity, Graduate+, peer learning
- *Private Study* includes preparation for exams

The *balance of assessment* by mode of assessment (e.g. coursework, exam and in-person) depends to some extent on the optional modules chosen by students. The approximate percentage of the course assessed by coursework, exam and in-person is shown below.
