BIRMINGHAM CITY University

EDUCATION MINI LECTURES

PRIMARY AND SECONDARY EDUCATION

Understanding the education sector

Working in any sector requires knowledge of what is happening in the wider industry, and that is the same for education. Teachers and other members of staff in schools and colleges are constantly being affected by changing policies and reforms, and this talk will guide you through the ever-changing landscape of the education sector.

CONDUCTIVE EDUCATION

A career in enabling disabled children and adults to learn without limits

This session introduces the field of conductive education. Students discover the career of a professional conductor and their role in supporting individuals with physical disabilities. They will develop an understanding of strategies and techniques used to enhance the lives of children and adults with complex needs.

Changing views on special educational needs and disabilities through conductive education

This session will challenge your students' thinking on disabilities and what children and adults with special needs can achieve. Students can explore the role of a professional conductor and discover how to best support individuals with neurological motor disorders to learn.

Session dates are negotiable. For further information or to book, please get in touch via **www.bcu.ac.uk/schools-and-colleges**
